NOTE: The following score calculations are not validated nor approved by the Secondary School Admission Test Board, which owns the trademark 'SSAT'. No test gives you a completely accurate measure of your abilities. These *approximate* scores are intended simply to help you focus on your strengths and weaknesses as you prepare to take the official SSAT in the future.

SCORING

	READING	VERBAL	QUANTITATIVE
Raw Score = [Correct Answers - (1/4 x Wrong Answers)]	24	39	28
Personal Scaled Score Range	596 -626	650 -674	593 -614

The table below gives the 50th percentile score (the score at which an equal number of students scored higher and lower) for each subject and for each grade level. Compare your personal score range with the median scores of the students within your grade level:

MEDIAN 50th PERCENTILE

GRADE	READING	VERBAL	QUANTITATIVE
Grade 5	569	584	563
Grade 6	593	614	593
Grade 7	611	638	614
